"Briana has created something unique with the Tricker-Treater. He's a monster, but its evil is focused on highlighting the monsters within the people who summon it. He gives people what they want, but the real horror arrives when people see what the reality of their darkest desires is."

— **Michael Goodwin**, author of *How Good It Feels to Burn*

"Briana has become one of those writers for me that whenever they release something I have to put down whatever I'm reading and dive in right away. And a treat Briana has for readers this holiday season. If you like a little spooky with your Christmas season then this story is for you, especially if deals with the devil are your thing."

— **Jamie Stewart**, author of *I Hear the Clattering of the Keys*

"Overall, I think this is an alluring introduction to the imagination of Briana Morgan. I'm excited to see where this journey into horror will take her--I'm keeping my bookshelves open to whatever she releases in the future."

— **Sadie Hartmann**, Mother Horror, owner of Night Worms

"After getting a taste of the author's work and seeing the absolutely amazing cover, I knew I was in for a delightfully terrifying read. This is a short collection of stories by a talented author that I am always happy to recommend. I suggest you check this one out but be wary of The Tricker-Treater and his chicanery."

"The Tricker-Treater is gonna stop by your house tonight. You gotta meet with him and do what he says, or else."

A woman agrees to take part in a creature's sick game to save the child she loves. A girl and her mother move into a nightmare house. Two brothers embark on a high-seas treasure hunt.

In this haunting collection, Briana Morgan shares stories of love, loss, and horrors both real and imagined.

"I've been in the mood for stories about the dark side of social media for quite a while and Unboxed came into my life at the right time. I was even more so excited for it since it's a play and, if I don't take into account the mandatory high-school literature, I've never read one. A pleasant surprise and I highly recommend it."

"Unboxed is creepy, entertaining, dark, and kept me turning the pages until I was finished the entire story in one-sitting. I refused to get off the couch until I knew how everything ended. The atmosphere of this play alone is worth 5 stars in itself."
